PROFESSIONAL PROFILE

PhD in **STEM Education** from **The Ohio State University, USA** (Fulbright scholar), with expertise in **STEM education, digital mathematics storytelling, AI in education, technology integration in education**. I work across **qualitative, quantitative, and mixed-methods research traditions**, supporting HDR candidates and early career researchers in research design, data analysis, academic writing, and publication. I have **over 18 years of teaching experience** across undergraduate, honours, and graduate programs in research methods and education-related fields. I have published **50+ peer-reviewed journal articles**, with **870+ citations on Google Scholar** and **20+ international conference papers and posters**, and my research has been supported by **20 nationally and internationally competitive awards and fellowships totaling over USD 450,000**. Methodologically, I am proficient in a wide range of **analytical and qualitative software** (including **R, SPSS, MPlus, NVivo, and Transana**) that enable me to support diverse methodological approaches across disciplines. I bring extensive experience in **research training, supervision and mentoring, fellowship advising, and program development** within research-intensive and highly international university contexts, with a strong commitment to inclusive research cultures and equitable participation in higher education.

RESEARCH INTERESTS

- STEM education
- Digital mathematics storytelling
- AI in education
- Technology integration in education

EDUCATION

2021 – 2025	PhD in Science, Technology, Engineering, Mathematics (STEM) Education; Concentration in Mathematics Education
-------------	--

The Ohio State University, USA

GPA: 4.0

Dissertation: Voices from the Margins: Digital Storytelling in Mathematics Education for First-Generation Pre-Service Teachers from Rural and Low-

September 3, 2026

Income Backgrounds

2021 - 2024	Master of Arts The Ohio State University
2012 - 2015	Master of Education in Mathematics Education Universitas Negeri Surabaya, Indonesia
2008 - 2012	Bachelor of Education in Mathematics Education Universitas Muhammadiyah Prof DR. HAMKA, Indonesia

PROFESSIONAL EXPERIENCE

2026 - present	SSHRC Postdoctoral Fellow (Canada Impact + Research Training Award) <i>Ontario Tech University, Canada</i> • Design and conduct an explanatory sequential mixed-methods study examining how pre-service STEAM teachers develop epistemic agency, professional judgment, and critical AI literacy when engaging with generative AI, funded by the Canada Impact+ Research Training Award (SSHRC) • Develop and implement educational resources related to STEAM education and generative AI for teacher education contexts • Lead outreach initiatives with pre-service teachers, conduct data collection and analysis, and disseminate research findings through conference presentations and peer-reviewed publications • Teach graduate-level courses within the Faculty of Education, as assigned in consultation with faculty supervision, contributing to the delivery of the online and in-person MEd program • Mentor undergraduate and graduate research assistants within the Centre for Digital Innovation in Education (CDIE) • Collaborate with faculty members and interest-holders across the Faculty of Education and Ontario Tech's research community
2025 - 2026	Fellowship Advisor and Class Instructor <i>Florida Gulf Coast University, USA</i> • Design and deliver research development and fellowship preparation programs for undergraduate and honours students applying to highly competitive national and international awards (e.g., Fulbright, Knight-Hennessy, Gates Cambridge, Rhodes). • Independently design and teach the Honors College course IDH 1930: Competitive Fellowship, focusing on research proposal development, academic writing, and scholarly identity formation. • Co-facilitate interdisciplinary STEM and research skills programs, supporting students' preparation for postgraduate study and research careers. • Lead outreach, data analysis, and program development initiatives within the Office of Competitive Fellowships to strengthen participation, equity, and student success outcomes.
2024 - 2025	Independent Teaching Associate <i>The Ohio State University, USA</i> • Independently taught EDUTL 5108: Teaching and Learning

Mathematics in Grades PreK–5, a core methods course for undergraduate and master’s students in teacher certification programs.

- Designed and facilitated research-informed sessions on **Cognitively Guided Instruction, number sense, and problem-solving**, integrating culturally sustaining and humanizing pedagogies.
- Mentored undergraduate and graduate students in connecting **theory, research, and practice**, supporting reflective teaching and inquiry-oriented professional development.

2015 - 2021

Lecturer

Universitas Pamulang, Indonesia

- Taught undergraduate courses in **statistics, quantitative research methods, and data analysis**.
- Designed and delivered lectures, tutorials, and applied workshops on **research design, inferential statistics, and statistical software**, supporting students’ development of methodological competence.
- Supervised undergraduate research projects and mentored students in applying statistical techniques to real-world and policy-relevant problems.

2009 - 2015

Early Teaching Experience (Secondary and Learning Centers)

- Taught mathematics across secondary school and supplementary learning centre contexts, supporting students’ preparation for national examinations and university entry.
- Developed differentiated instructional materials and incorporated early digital tools to enhance engagement, problem-solving, and learner confidence.
